85-90 Million People Died  
WW II Ended - Germany May 8, 1945  
& Japan, September 2, 1945

All the Nations involved in the war threw their entire economic, industrial, and scientific capabilities behind the war effort, blurring the distinction between civilian and military resources.

World War II was the deadliest conflict in human history, marked by 85 to 90 million fatalities, most of whom were civilians in the Soviet Union and China.

It included massacres, the genocide of the Jews which is known as the Holocaust, strategic bombing, premeditated death from starvation and disease, and the only use of nuclear weapons in war.

It is estimated that 6 million Jews were murdered by the German Nazi's and millions of dollars of money and valuables were looted

and a majority of it has never been recovered. Japan, which aimed to dominate Asia and the Pacific, was at war with China by 1937.

World War II is generally said to have begun on 1 September 1939, with the invasion of Poland by Germany and subsequent declarations of war on Germany by France and the United Kingdom.

From late 1939 to early 1941, in a series of campaigns and treaties, Germany conquered or controlled much of continental Europe, and formed alliance with Italy and Japan. Adolf Hitler's reign of terror lasted 12-years, from 1933 to 1945.

As we head into 2020 the Socialist political policies are at the forefront of the American political electoral.

Should the Voter Fraud succeed in America and the Democratic Socialist Party win the 2020 Presidential election we will become Germany 1933.

And like Hitler's propaganda news the main stream media and the Big Tech social media fill that role.

We already have political correctness which is anti-free speech, universities and colleges that prohibit free speech, gun control, judges that make up their own laws, we allow the murdering of 300,000 unborn human beings annually, anti-Christianity, anti-American flag, a \$20-Trillion debt, 12-million illegals and let's not forget Antifa, the Socialist Brown Shirts. GOD SAVE AMERICA!

Corporal, Ira Hamilton Hayes, and five other U.S. Marines were photographed raising the American flag in the inland of Iwo Jima on February 23, 1945 by Joe Rosenthal.

Three of the six Marines depicted in the photograph, Sergeant, Michael Strank, Corporal, Harlon Block, and Private First Class, Franklin Sousley were killed in action over the next few days.

The three surviving flag-raisers were Corporals Rene Gagnon, Ira Hayes, and Harold Schultz.

Hayes was born on January 12, 1923 at Sacaton on the Gila River Indian Reservation in south central Arizona. He died on January 23, 1955 at the age of 32.

## Alaska: President Trump Halts Pebble Mine Project

INDIAN•COUNTRY•TODAY By Joaqlin Estus, November 25, 2020

President Trump's administration denied a permit for a controversial gold and copper mine near the headwaters of the world's largest sockeye salmon fishery in southwest Alaska.

Environmental and tribal organizations are celebrating President Trump's decision.

The Army Corps of Engineers said in a statement that the permit application to build the Pebble Mine was denied under both the Clean Water Act and the Rivers and Harbors Act.

The corps also said the discharge plan from the Pebble Limited Partnership, the mine's backers, doesn't comply with Clean Water Act guidelines.

The statement from Col. Damon Delarosa, commander of the corps' Alaska district, says the agency *"concluded that the proposed project is contrary to the public interest."*

A coalition of area tribes, in a prepared statement, said tribes and others are celebrating the Corps' decision "as the decision reflects the sound science and overwhelming public opposition to this toxic project."

The United Tribes of Bristol Bay, a coalition of 15 federally recognized Yup'ik, Dena'ina, and Alutiiq tribes in Southwest Alaska, said the threat of large-scale mining will loom until per-

manent protection of the Bristol Bay watershed is achieved. *"Future generations should not have to live with the threat of mining developments that would devastate our cultures, communities, and existing economies. We must ensure that Bristol Bay's pristine lands and waters are protected in perpetuity. The fact that this permit denial comes from a pro-development administration speaks volumes to the need for strong, permanent protections for the Bristol Bay watershed and all it sustains."*

Robert Heyano, the coalition board president, added, *"The people of Bristol Bay have long known that our home is no place for a mine like Pebble. Today, we celebrate the appropriate action taken by the USACE in finally acknowledging this underlying truth: Pebble's proposal is too toxic for our region and cannot be built without devastating the environment that sustains our cultures and communities."*

## Kamala Harris & Dominion Voting Software Connected

TheCapTimes.com By Amalia White, November 30, 2020

More bombshell findings keep Dominion Voting Software and this time it implicates Kamala Harris.

The Dominion Voting Software Scandal Keeps Getting Worse

As tensions rise over the widespread use of Dominion Voting Software and its high probability that it switched votes from Donald Trump to Joe Biden.

Now a Dominion representative who was responsible for the scanning of ballots in Floyd County, Georgia has been named as a former Kamala Harris campaign worker. He was an official photographer for the campaign last year.

Georgia is one of the top battleground states President Trump and his team have been contesting. So far, more than 3,000 votes for the president went uncounted in Floyd county until it was uncovered.

Kamala Harris Minion Uncovered.

Aric Thompson is the Dominion representative who was also a ballot scanner.

He worked for radical Democrat Senator Harris in 2019, which can be seen from his [LinkedIn profile](#).

He also has an online portfolio pictures of him with Harris.

## Michigan is Going Through the Motions' No Intentions of Seeking the Truth

Prima Donna, Republican state Sen. Ed McBroom, the chairman of the Michigan Senate Oversight Committee, did not allow President Donald Trump's attorney

Rudy Giuliani to testify at the hearing to review elections operations in the state.

In effect, McBroom told Jonathan Oosting, a reporter for Bridge Michigan, Giuliani had no *"first-hand knowledge"* of election fraud.

The hearing allowed only those with first-hand accounts of irregularities who have submitted affidavits to testify.

On that note, McBroom said if the Trump campaign has *"somebody with first-hand knowledge who wants to come in, they can put in a card and wait in line with everybody else for their three minutes."*

One witness, an IT Dominion Voting Sys-

tems contractor assigned to the Detroit TCF Center testified that election workers were scanning the same ballots as many as ten times.

She said she reported the illegal activities to her supervisor and the election supervisor but was rebuffed. She also testified that she contacted the FBI and has yet to hear from them. Now she had 3-minutes to inform the hearing committee.

*"I don't think anything will cause the state to change its certification on the election. We'll be bringing in people who have first-hand accounts that they want to share with us, that they've already shared through affidavits,"* McBroom told RRN before the hearings. *"Like I said, some of the affidavits are just plain silly. But there are a few that are very serious."*

## WOW: Fresh Election Fraud Info Released

TheCapTimes.com By Anastasia Boushee, November 39, 2020

Once again, Detroit is proving to be one of the most corrupt cities in America. New evidence from the 2020 election shows that a substantial number of absentee ballots were not applied for or mailed to voters.

In Wayne County, 566,788 absentee ballots were cast. Of those, 203,311 ballots show that no application for an absentee ballot was mailed or sent to the voter, meaning that 36% of absentee votes were never requested.

Contrast those statistics with the rest of Michigan, whose percentage of voters who never requested an absentee ballot, but one was cast for them anyway, was just 9%.

Somehow, Wayne County was four times the state average, which raises serious concerns among people investigating election integrity.

An article from David Harris Jr.'s news outlet reported: "Now, it is true that if you go to the registrars office it wouldn't show up but do you believe 203,311 did that? *"...There are enough of those votes in Detroit alone to flip the election and that doesn't count the 252,456 in the rest of the state."*

A data vendor in Michigan who conducts regular business in front of the Secretary of State said, *"This isn't necessarily a smoking gun for fraud, but it does suggest that either wide scale ballot harvesting was being done, or the post office was backdating illegal ballots, or there was widespread absentee ballot fraud as many people have alleged."*

According to the Michigan Bureau of Elections, *"If that field is blank it simply means that the voter was nev-*

*er sent an absentee application. With the new Online Absentee Application lots of voters sent an app in through MVIC so they were never sent one."*

MVIC is the Michigan Voter Information Center, which is run by the Department of State and is in charge of mailing absentee ballots to voters.

Despite these attempts at explaining away the issue, many are questioning where the ballots came from, and requesting that the state provide evidence that the ballots are not fraudulent. Some are even calling to establish a call center to contact

each individual whose name is on one of these ballots, to ensure that they actually voted.

According to the Michigan Bureau of Elections, *"If that field is blank it simply means that the voter was never sent an absentee application"*.

# Evil Crime Against Humanity in America For Political Power

Source: One American News Network, Nov. 29, 2020

**Given this information there is NO justification for the shut down of America, period.**

As if the current national general election voter fraud isn't bad enough, **One America News Network** reported that thousands of doctors through out the Country were censored and threatened with legal and bureaucratic actions because they didn't support the fear mongering Socialist-Democrat politicians, Big Tech censorship and the Socialist propaganda machine AKA the main stream media hysteria and politicizing the coronavirus.

The majority of these doctors were forced to remained silent so that they could continue to treating and curing thousand of their patient's with **hydroxychloroquine**.

A drug that has been used to treat malaria since 1944. It is also used to treat autoimmune diseases like rheumatoid arthritis and lupus. It is also considered relatively safe.

However, after President Trump announced to the public at a briefing that he used **hydroxychloroquine** as a preventative against the coronavirus the Socialist-Democrat forces went insane claiming the drug was dangerous, useless and should be banned. Numerous study found no evidence that the drug helps prevent the disease or alleviates its symptoms.

The OAN report claimed that an estimated 80,000 to 150,000 American died because they weren't allowed to receive the **Hydroxychloroquine** treatment due to the fear-mongering.

The report went on to provide disturbing evidence that many countries were using **hydroxychloroquine** during this time period to treat people infected with the coronavirus with great success but the information was prevented from being reported to the American people and other nations by the Socialist Democrats, the main stream media and social media controlled by Big Tech and the World Health Organization.

**Why?** The answer is obvious and is still being played out. The main stream media created a national panic, which allowed the Socialist Democrats to force the economic shut down of American for one purpose, to blame President Trump for it and to promote their Socialist agenda as saviors.

OAN went on to show how the coronavirus fraud was used to shut down the thriving American economy causing millions of Americans to lose their jobs and struggle to feed their families.

Yet, while the hard working American people were forced to comply with wearing a face mask, which are questionable at best, to stay home and not allowed to work or attends church services while rioter were allowed to burn, loot and destroy private and public property without any restraints.

And in some areas police were not allowed to arrest looters if they proclaimed to be in need of the items they stole. And in one highly publicized in Missouri a couple were arrested for protecting them themselves and their home from rioter.

And now, the main stream media is again telling the American people that there is a major surge in the coronavirus. But anyone with an ounce of common sense would have to question how the flu season fits into this up shot in the virus counting. After all since the out break of the coronavirus all other illness and disease seem to miraculously vanish.

**The 100,000-plus deaths** from illegal drug over-doses, automobile accidents, heart attacks and other disease also decreased over the 8-months between March 1, 2020 and

October 28, 2020. However, 230,000 deaths were attributed to the coronavirus.

Again, the question is why would hospital, doctors and health providers an inaccurate cause of death? The answer is simple, money! Yes, money the government provides a financial assistance aid package of 20% added to the cost for the care of each person that dies from the coronavirus which in many cases add millions of dollars to the bottom line.

Here is some shocking coronavirus survival statistics reported by OAN: Ages 0-19=99.993%, Ages 20-49=99.98% and Ages 50-69=99.5% and Ages 70 plus is 94%.

Those with pre-existing health conditions such as heart disease, obesity and diabetes in way of example are at a higher risk level and is more prevalent within the elderly.

What is disturbing is that the coronavirus survival rate is higher than the normal flu!

**Given this information there is NO justification for the shut down of America, period.**

## Saul Alinsky's "8-steps to Create a Socialist State"

Saul Alinsky's "8-steps to Create a Socialist State" is the bedrock of the American Socialist Democratic Party. I believe it's important for you to understanding want it means. Who was Saul Alinsky? He was an American community organizer and writer. He is often noted for his book *Rules for Radicals* (1971) and his "8-steps to topple a nation and create a Socialist State" which are as follows:

- 1) Healthcare — *Control healthcare and you control the people.*
- 2) Poverty — *Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.*
- 3) Debt — *Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.*
- 4) Gun Control — *Remove the ability to defend themselves from the Government. That way you are able to create a police state.*
- 5) Welfare — *Take control of every aspect of their lives (Food, Housing, and Income).*
- 6) Education — *Take control of what people read and listen to — take control of what children learn in school.*
- 7) Religion — *Remove the belief in the God from the Government and schools.*
- 8) Class Warfare — *Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.*

# “Willy the Wolf” Visits to Epstein’s Pedophile Island Gets Snitched Off by His Former “Right-Hand-Man”

theBlaze December 2, 2020 \* Contributed by Franklin Motte, Moreno Valley CA

Wow. Doug Band — (Ex-President) Bill Clinton's former right-hand man — says “*Clinton visited Jeffrey Epstein's private island, which Clinton has repeatedly denied,*” Business Insider legal reporter Jacob Shamsian tweeted regarding the news.

What else? The claim appears in a lengthy Vanity Fair feature story about Band's time working with Clinton, titled, “Confessions of a Clintonworld Exile,” written by Gabriel Sherman.

In the article, Band discloses a great deal about Clinton's life and work post-presidency, including details about the Clinton Foundation and the Clinton Global Initiative. But perhaps the most relevant bit of information relates to Clinton's supposed visit to Little St. James, Epstein's private 70-acre island in the Caribbean, where it has long been surmised that the accused sex trafficker and his guests would engage in acts of pedophilia.

What are the details? The information became public after a federal judge ruled in July that the trove of documents from a 2015 defamation cases against Maxwell could be unsealed. Maxwell, a British socialite closely associated with Epstein, is currently being tried by the U.S. Department of Justice on charges of conspiracy, perjury, transporting minors for illegal sex acts, and enticement of a minor to travel to engage in illegal sex acts.

Anything else? In the Vanity Fair article, Sherman noted that Band claimed that Clinton's daughter, Chelsea, had ties to Epstein and Maxwell as well.

*“[Band] showed me a photo of Bill and Chelsea posing with Epstein and Maxwell at the King of Morocco's wedding,” Sherman wrote. “Chelsea remained friends with Maxwell for years after the press revealed Maxwell was a close associate of Epstein's. For instance, Chelsea invited Maxwell to her 2010 wedding at the Brooke Astor estate in Rhinebeck, New York, after Epstein had pleaded guilty in Florida to procuring sex from a minor.”*

*“Ghislaine had access to yachts and nice homes. Chelsea needed that,” Band told me,” he added.*

Here's an excerpt from the article where Sherman outlined Bill Clinton's working relationship with Epstein, according to Band, with the specific accusation in bold:

*Band told me he had been trying to push Epstein out of Clinton's orbit ever since their much-discussed 2002 trip to Africa aboard Epstein's private 727, dubbed the “Lolita Express.” Band recalled that Epstein had made a bunch of ridiculous claims on the trip, like boasting that he invented the derivatives market. Band said he had no idea about Epstein's sex crimes back then but got enough bad vibes that he advised Clinton to end the relationship. But Clinton continued to socialize with Epstein and take his money. In 2006 Epstein donated \$25,000 to the Clinton Foundation. Clinton made more than two dozen trips on Epstein's jet around this time, Epstein's flight logs show. In January 2003, according to Band, Clinton visited Epstein's private Caribbean island, Little St. James. Band said it was one of the few trips he declined to go on in his time with Clinton. A Clinton spokesperson said the president had never been to the island and provided detailed travelogue entries of the period in question that did not contain a visit.*

"Band's assertion follows similar accusations found in unsealed court documents involving Epstein and alleged accomplice Ghislaine Maxwell, in which witnesses claim that Clinton visited the island accompanied by "young girls."

## Attorney General, Bill Barr Blast Fake News For False News Quate of “No Voter Fraud”

December. 4, 2020

Attorney General, William Barr The main stream media has yet made the mistake of giving a few words to reporter on Tuesday, December 1, 2020. The media instantly twisted them out of content. The liberal media reported that he said that their was “*No evidence of widespread voter fraud,*” but what he in fact said was that the investigation was on-going.

Barr, through an official Department of Justice spokesperson, pushed back hard in the lies which the corrupt and complicit fake network media have been spewing.

No, the DOJ firmly declared, the investigation is far from over.

The main stream media has yet to retract their error and report the corrections issued by the DOJ.

AG Barr should be well aware that anything he had to say could be used against him. His mistake was in forgetting that the court of public opinion has no evidence rules, other than the ones laid down by liberal media.

The Department made sure to point out that Barr has long been on the record as suspicious of the election procedure. Long before the election, he “repeatedly raised the notion that mail-in voting could be especially vulnerable to fraud.” He was right.

This text is originally from Pam Bondi, former FL Attorney General. Please take time to read and forward...

**Ok in a nutshell. This is going to the Supreme Court.** Where they will rule that the election is invalid due to fraud or mistakes on a country wide scale. It will go one of two ways, either they will rule that all the unconstitutional mail in ballots will be removed and the states ordered to recount without them or they will simply rule the election is invalid due to mass voter fraud and at that point it will be sent to the congress and senate for a vote.

This is where it gets good. The house/congress votes on who the President will be. It has nothing to do with what party that has power. Every State gets one vote... 30 states are held by Republicans and 19 by Democrats. **They have to vote down party lines, they have no choice due to the 12th Amendment of the Constitution,** and the Senate votes for the Vice President where a similar event will take place. This is The law. This is why the Democrats are so mad at Nancy Pelosi. This will all happen in January. The only way President Trump won't be President is if he concedes the election, and that will never happen. So, stop watching the fake news and don't let your heart be troubled. Live your life knowing this will all work out. President Trump will remain President. I have researched all of this and it is Fact!

Another fun fact, they called Gore the President Elect for 37 days in 2000 until the courts ruled against him and declared Bush the winner. And two people that will be part of that decision are none other than new Supreme Court Justices Brett Kavanaugh and Amy Coney Barrett. Why do you think the Democrats tried so hard to keep them from being confirmed? (Note added by Editor - let's also not forget what Joe Biden did to Justice Thomas 30 year ago during his confirmation hearings.)

71 Million Trump voters. It's time we really fight back! Please share this with every Trump supporter you know! We need to be as impactful as we can. **It's time to MOBILIZE!** It's time we put forth the power we truly hold in this country. This working class truly is the heart of America.

## The Sneaky BS Facebook Pulled on Conservatives Election Week

By Matt Holloway, November 26, 2020

In the week following Election day the Daily Wire and the New York Times have reported Facebook made an “emergency change” to its algorithms driven by a “N.E.Q.” or “News Ecosystem Quality” score. This is the sneaky BS Facebook pulled on conservatives election week.

What did Facebooks ‘Sneaky BS’ do? The Daily Wire reported: These changes were designed to specifically impact what the New York Times identified as “*mostly right-leaning sources, from spreading what the platform deemed to be ‘election misinformation.’*”

This resulted in alternative news sources being suppressed and leftist compromised Mainstream Media sources being amplified.

The Daily Wire reported:

“Facebook employees found that after the election, news stories from right-leaning outlets and pages on instances of voter fraud, miscounted ballots, and other election irregularities, mistakes, and misconduct were some of the most popular articles on the platform.”

The SJWs at Facebook panicked and CEO Mark Zuckerberg resorted to a “*break glass*” emergency algorithm change to promote or suppress certain news articles and posts in news feeds. According to the New York Times, “Typically,

*N.E.Q. scores play a minor role in determining what appears on users’ feeds. But several days after the election, Mr. Zuckerberg agreed to increase the weight that Facebook’s algorithm gave to N.E.Q. scores to make sure authoritative news appeared more prominently, said three people with knowledge of the decision, who were not authorized to discuss internal deliberations.”*

The New York Times’ source added “It resulted in a spike in visibility for big, mainstream publishers like CNN, The New York Times and NPR, while posts from highly engaged ‘hyper-partisan’ pages, such as *Breitbart* and *Occupy Democrats*, became less visible”

On the surface an apologist could say ‘Well at least Occupy Democrats was throttled too’ But that’s very hollow consolation when you

realize that Occupy Democrats may be a more honest player than CNN, NYT or NPR, because at least they acknowledge their bias.

A familiar duplicity from Facebook This is yet another damning account of Facebook and Mark Zuckerberg’s duplicity. It’s the very same structure of deceit that resulted in a criminal referral from Congressman Matt Gaetz in July. As Congressman Gaetz wrote,

*“As a member of this body, I question Mr. Zuckerberg’s veracity, and challenge his willingness to cooper-*

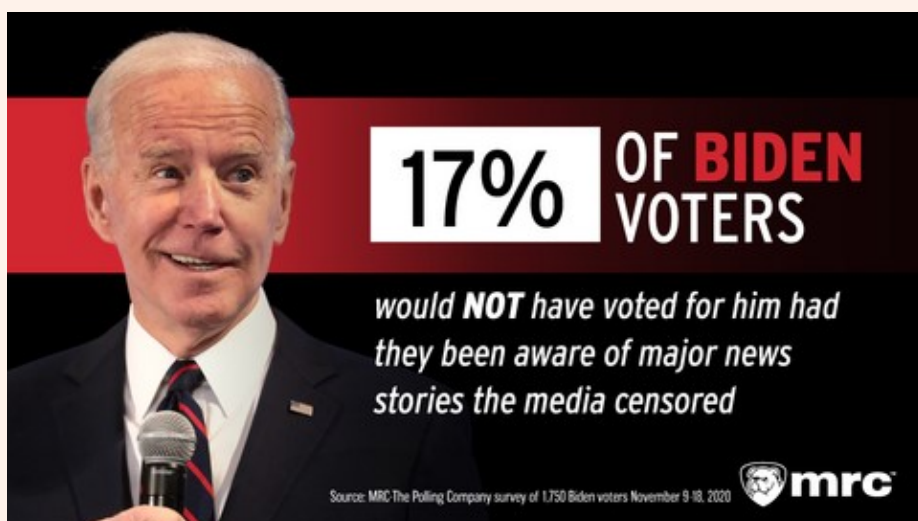

*ate with our oversight authority, diverting congressional resources during time-sensitive investigations, and materially impeding our work. Such misrepresentations are not only unfair, they are potentially illegal and fraudulent.”*

It seems that if Congress won’t hold Facebook to account perhaps the market will, as alternate social media platforms such as Parler, Minds, MeWe, Gab and Rumble see meteoric rises in users.

**New Poll Shows the Consequences**

The Washington Examiner has reported that a new Media Research Center (MRC) poll shows, if Social and Mainstream media were not biased against him: **President Trump would’ve won in a landslide.**

One way or another, this election really was stolen. Either through outright election fraud or the unholy alliance of the media and Silicon Valley who deliberately swung the election through selective censorship and suppression.

## The “Where’s the Evidence Argument” is Dead. Giuliani At PA Election Hearing: “You’ve Sent Out 1.8 Million Ballots And The Number You Counted Is 2.5 Million”

Contributed By Andrea Marquez, Soboba Band of Luiseno Indians CA

You don’t have to be a mathematician to understand that these numbers don’t add up.

Giuliani in the hearing also said that over 672,770 votes were not inspected and were secretly put into the ballot box.

*As republicans across the country continue to speak out about claims of fraud during the presidential election, Pennsylvania republican leaders held a public hearing today to discuss issues with this year’s election. Trump is calling on Pennsylvania to turn over election results to prove there was voter fraud.*

*His lawyer, Rudy Giuliani spoke at the hearing in Gettysburg. He claims there were hundreds of thousands extra mail-in ballots that were cast in the presidential election.*

*“You sent out in the Commonwealth of Pennsylvania 1,823,148 absentee or mail-in ballots. You received back 1.4 million approximately. However, in the count for president, you counted 2.5 million. I don’t know what accounts for the 700,000 difference between the ballots you sent out and the number of ballots that ended up in the count,”* said Giuliani.

Rudy Giuliani pointed two huge gaps with Pennsylvania’s mail-in ballots.

*“You have two major gaps — you have the 672,770 votes that were not inspected by anyone secretly put into the ballot box and then you have this gap that I don’t understand between the mail-in ballots. You’ve sent out: 1.8 million and the number you counted: 2.5 million!”* Rudy said.

Rudy continued, *“That’s totally impossible to explain other than what some of the other witnesses were suggesting that they were basically stuffing the ballot box. I believe what happened was that they never expected to be behind by 700,000 or 800,000 votes on election night. They expected to be behind by a couple hundred thousand — in Philadelphia to steal a couple hundred thousand votes, they do it every year, that’s not going to be tough. Now you have a real big problem so you had to create mail-in ballots, you had to stretch it out for a while...”*

Giuliani isn’t making these statements in front of a talk show host, he made these comments before knowledgeable lawmakers in the state of Pennsylvania.

# Sidney Powell releases the Kraken!

So who or what is the ‘Kraken’? *The “Kraken” is a Department of Defense-run cyber warfare program that tracks and hacks various other systems to acquire evidence of nefarious actions by the deep state! President Trump and the loyal patriots in the Military and Space Command now have all the evidence of voter fraud and election-related treason. This will be used against the enemies of America!*

By DINO PORRAZZO  
Contributed by Franklin Motte Moreno Valley CA

Dobbs begins his call by discussing the Dominion voting systems and the election fraud involved in electronic voting. Many questions remain unanswered, and Dobbs says it’s “stunning” that America doesn’t know much about the companies we’re using to tabulate votes. Powell says both parties have any number of people who are at fault.

The conversation moves on with a discussion about the lawsuits Powell is filing beginning with Georgia. She says the voter fraud was nationwide. Powell reassures Dobbs that the deadlines for filing the lawsuits will be met.

Leave it to Sidney Powell to drop a bomb on the Democrats in Arizona.

*“I mean, people sitting on the floor writing on the side of buses filling out ballot after ballot. It’s in your face everywhere. The statistical evidence is insurmountable. The mathematical evidence is to a mathematical impossibility. This is no way there was anything but widespread election fraud here. We’ve got one witness that says in Arizona that there were 35,000 votes added to every Democratic candidate to start their voting off. It’s like getting your \$500 of Monopoly money, to begin with, when you haven’t done anything. And it was only for Democrats.”*

What we are witnessing with the 2020 elections is NOT an election. We are witnessing the attempt of the overthrow of the United States Government. The CIA, FBI and DOJ are full of Treasonous Swamp Rats that are intent on stealing the Presidential seat, and taking over America for the global order. They are wicked globalist puppets who are boldly pushing their coup to destroy America and implement a global reset and usher in United Nations Agenda 2030 which is the revised version of sustainable development Agenda 21.

They are in lockstep throwing all their punches at unsuspecting Americans while nations around the world are doing the very same lockdowns on their citizens. Will they succeed? The answer is NO!

Sidney Powell appeared on Lou Dobbs’ show Tuesday night (November 24, 2020) and dropped some major bombshells about the investigations taking place involving the “overwhelming evidence” of voter fraud across America in the 2020 election.

On Saturday (November 21, 2020)

Powell told Newsmax that 35,000 votes were added to every Democratic candidate in AZ, to start their count, and that she believes this also happened elsewhere, The Gateway Pundit reports.

Then on Tuesday Powell told Lou Dobbs *“We’ve got one witness that says in Arizona at least there were 35,000 votes added to every Democratic candidate just to start their voting off.”*

## Gettysburg: Expert cybersecurity witness testifies that voting machines built to be ‘manipulated’

A retired U.S. Army colonel and noted cybersecurity and information warfare expert testified at a hearing in Gettysburg, PA on Nov. 25, 2020 that ballot machines used in Pennsylvania and around the U.S. on Election Day were designed to be “manipulated.”

In testimony before a panel of state lawmakers, Phil Waldron, who said he spent three decades in the military as an infantry officer and in psychological operations, said his team has been researching the “specific issue” of electronic ballot fraud since August.

However, he added that his team has been working with another electronic forensic team that began working on “voting machine manipulation” since 2018, when “significant anomalies” were seen in a pair of races, one between Sen. Ted Cruz (R-Texas) and Democratic challenger then-Rep. Beto O’Rourke and a Kentucky governor’s race.

Waldron added *“there are many, many more teams like ours”* that are similarly examining voting machine irregularities before stating flatly: *“The voting systems in the U.S. and in Pennsylvania were built to be manipulated.”*

He went on to claim that similar electronic voting machines have “stolen elections” around the world in countries like the U.S., Argentina, Italy, Venezuela, Bolivia, and Singapore, even *“as close as two weeks ago.”*

Regardless of the manufacturer — such as ES&S and Dominion — all of the machines “have a common DNA,” which is their programming.

*“The bottom line is these machines have similar [programming] codes and similar functions,”* Waldron testified.

Waldron said the person who told him that has also signed a sworn affidavit stating as much.

*“These systems are not what you’ve been told. They are connected to the Internet and servers outside of the U.S.,”* Waldron said, adding that there is *“no transparency”* to the systems.

He said that the software was designed to allow seamless, nearly undetectable manipulation that includes changing votes and reassigning votes to preferred candidates.

Waldron then pointed out that an election storage facility in Philadelphia was robbed on Sept. 30, in which thieves removed 30 USB drives and a laptop, suggesting they could have been used in voting machines to alter votes.

*“Our experts and other academics believe that up to 1.2 million Pennsylvania votes could have been altered or fraudulent, this is what we discovered in the last 22 days,”* he testified, adding that the only way to be certain is to conduct *“a detailed forensic analysis of the actual machines and software.”*

Waldron said that, thus far, his teams have *“focused on the spike anomalies”* seen on graphs depicting when votes were recorded as coming in for President Donald Trump and Democratic rival Joe Biden.

In Pennsylvania as well as other states, spikes occurred after polls closed, generally in the wee hours of Nov. 4 and most going for Biden. The anomalies *“are events when a numerical amount of votes are processed in a time period that’s not feasible or mechanically possible under normal circumstances.”*

*“There are a dozen ways to interdict the voting process,”* he added.

Under questioning from Trump campaign lawyer Rudy Giuliani, Waldron explained that the spike anomalies in Pennsylvania, in sum, amounted to around 570,000 votes for Biden and only about 3,200 for President Trump.

## Saul Alinsky’s “8-steps to Create a Socialist State”

Is the bedrock of the American Socialist Democratic Party. Who was Saul Alinsky? He was an American community organizer and writer. He is often noted for his book Rules for Radicals (1971) and his “8-steps to topple a nation and create a Socialist State” which are as follows:

- 1) **Healthcare** — Control healthcare and you control the people.
- 2) **Poverty** — Increase the Poverty level as high as possible, poor people are easier to control and will not fight back if you are providing everything for them to live.
- 3) **Debt** — Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.
- 4) **Gun Control** — Remove the ability to defend themselves from the Government. That way you are able to create a police state.
- 5) **Welfare** — Take control of every aspect of their lives (Food, Housing, and Income).
- 6) **Education** — Take control of what people read and listen to — take control of what children learn in school.
- 7) **Religion** — Remove the belief in God from the Government and schools.
- 8) **Class Warfare** — Divide the people into the wealthy and the poor. This will cause more discontent and it will be easier to take (Tax) the wealthy with the support of the poor.

This is real folks and it is happening everyday in the Nation.
