## Pope Francis: 'Gender ideology' is one of 'most dangerous ideological colonization's

Pope Francis spoke out against gender theory in a recent interview, echoing his past comments expressing disapproval of transgender ideology. "Gender ideology, today, is one of the most dangerous ideological colonization's. Francis said in the conversation.

**PINE RIDGE INDIAN RESERVATION, South Dakota** — Drums and protest songs echoed across the prairie on Monday, Feb. 27, (2023) as hundreds of people marched to the **Wounded Knee Memorial** to honor the activists who revived the Indigenous fight against injustice 50 years ago.

The song of the American Indian Movement mingled with the eruptions of celebratory gunfire

at the site where hundreds of Lakota people were slaughtered by U.S. soldiers in 1890.

They came to mark the day in 1973 when a new generation of warriors slipped into the town of Wounded Knee under cover of darkness for what became a 71-day occupation that AIM leaders called a "liberation."

Most of the original AIM leaders are gone now, but others have picked up the fight.

"Today, we are still here," Victorio Camp, the son of the late AIM leader Carter Camp, who led the first wave of warriors into Wounded Knee, told the crowd gathered at the memorial.

"Today we are strong because of our relatives who fought here in '73. Today we are proud to be who we are as Native people, the Indigenous people of this land. Today, our youth are proud and strong because of the sacrifices our aunts and uncles and mothers and fathers made."

## Biden-supporting NBA superstar goes full NIMBY over low-income housing in his neighborhood

All-star basketball player Steph Curry's leftist activism came full circle from social justice warrior to hypocrite recently when he went from NBA to NIMBY.

The Golden State Warriors point guard known for his favor of former President Barack Obama, endorsement of President Joe Biden and penchant for Trump Derangement Syndrome regarding former President Donald Trump unsurprisingly proved himself to be another elitist in a letter penned by him and his wife

Ayesha Curry to their mayor and city manager.

According to a report from the Almanac, the couple has long opposed California's zoning mandate that would see a housing project erected in their affluent Atherton, Ca. community, ranked by Forbes as the "most expensive" zip code in the country, despite supporting the progressives that made it a reality.

## Study contradicts claims Critical Race Theory isn't in schools, over 90% students exposed to it

A recently published study suggests that the overwhelming majority of students in the United States have been exposed to at least one core principle of Critical Race Theory despite claims from many on the left that the curriculum is not taught in schools.

Researchers at the Manhattan Institute surveyed responses from more than 1,500 Americans recently out of high school aged 18 to 20, and 90% of respondents said they have heard at least one CRT concept from a teacher or adult at school and 93% had been taught a core tenet of Critical Social Justice (CSJ), a combination of CRT and radical gender ideology.

The study, which explains that its method is to *"interview a random sample of those who have recently graduated from school and can recollect their recent school experiences in order to estimate the extent to which CSJ has become part of American education,"* found that 62% of students said they were taught or heard from an adult that "America is a systemically racist country."

Additionally, 69% said they have

## DC City Council passes bill into law allowing illegal immigrants, other noncitizens to vote

The Washington, D.C. city council made it official on Monday, illegal immigrants and other non-citizens can now vote in local elections. The Democrat-run district that serves as the nation's capital went so far as to allow foreign diplomats to cast a vote.

That's according to various reports that the city council passed the Local Resident Voting Rights Amendment Act after a 30-day congressional review period ended — the GOP-led House pushed to block the D.C. law from taking effect but the Democrat-run Senate let the clock expire without taking action.

The law requires a person to be 18 and to have lived in D.C. for 30 days to be eligible to vote, providing they do not claim voting residence in any U.S. state or U.S. territory.

## How to save ourselves from Chinese, Democrat Party communism

The Biden regime's support for socialists throughout Latin America is aiding China's efforts to dominate the region. We must recognize and counter the Chinese Communist Party's (CCP) imperialist ambitions or lose our liberty. We cannot do so with an antiliberty regime in the White House that hates America and all it stands for.

We must survive the next two years

with Biden in the executive and recover our government from those whose goal is to transform the federal government into a dictatorship. One step in this direction, which has begun, is congressional Republicans investigating the Biden regime and informing the public of the truth.

Even though meaningful legislation will almost surely not become law, the Re-

publican-majority House must propose bills to counter the Biden regime's harmful policies. This shows voters that Republicans, hopefully with some Democrat support, would stop the march to tyranny of those behind the regime and restore US strength and values.

## Leonard Peltier Remains a Political Prisoner of The USA. Why? Because the FBI Framed Him & Don't Want Him Freed! Yet, Last Year Biden Finished Obama's Agenda By Freeing the Last 9/11 Hijacker. MY VIEW by *Ernie C. Salgado, Jr.*

Last year, Comrade Biden release the latest 9/11 hijacker while American Indian Freedom Fighter, Leonard Peltier remains a **POLITICAL PRISONER**.

It has been proven that he was framed by the FBI and every President since Nixon has been intimidated by the FBI to refuse to grant him freedom.

Historically and over the past few years the FBI has come under political scrutiny for everything from violating the constitutional rights of American citizens, falsifying evidence, lying and targeting political minority groups.

So after the white-washing of the Hillary Clinton e-mail fiasco they went full damage control by troughing agents under the bus.

The highest ranking FBI agent to be "disciplined" was Deputy Director Andrew McCabe. However, after the dust settled, so to speak he was "un-fired" by the Biden U.S. Attorney General Merrick Garland. exonerated him saying he didn't have enough evidence to prosecute him.

Yes, The Biden U.S. Attorney General stated that it didn't have enough evidence to defend the charges against him. The man lied to the FISA court under oath and to FBI agents investigating the case, yet the U.S. Attorney General stated that he lacked the evidence to defend the firing of McCabe from the FBI.

If the members of Congress and the main stream media weren't so hypocritical, corrupt and untrustworthy we might be able to be a little surprised at this latest revelation.

In all fairness to the Bureau they can't help themselves since it part of their DNA established by the patron saint of the FBI, John Edgar Hoover AKA J. Edgar Hoover.

The fact that the federal Bureau of Investigation was created by J. Edgar Hoover as his private police force that operated with impurity in the selective prosecution of individuals deemed "Criminals" by his Excellency.

The political power Hoover wheeled stemmed from his private data collect and storage thereof of members of congress and political activists.

One only needs to look at the criminal and racist history of the FBI toward Blacks, Mexicans, the Japanese during World War II and the American Indians to better understand the core values of the agency.

*Most minority groups view the FBI as Americas version of Hitler's Gestapo, Or was the Gestapo modeled after Hoover's FBI? Most likely the later.*

The FBI has used covert operations against domestic political groups since its inception; however, under the COINTELPRO official label covert operations took place between 1956 and 1971. Hoover waited 21-years to implement his rule of law? Yea right!

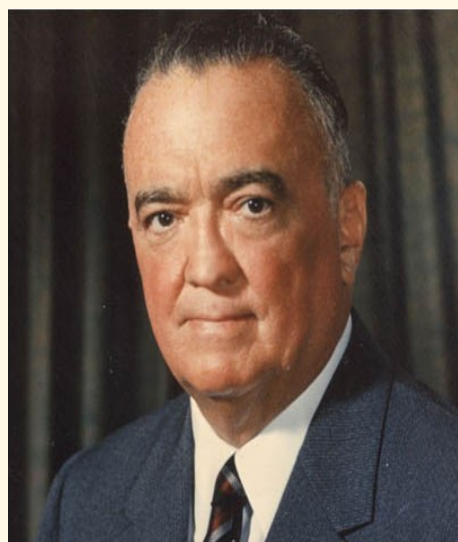

COINTELPRO (acronym for *Counter Intelligence Program*) (1956-1971) was a series of covert, and at times illegal and direct viola-

tions of the Constitutional rights of American citizens, projects conducted by the United States Federal Bureau of Investigation (FBI) aimed at shriveling, infiltrating, discrediting, and disrupting domestic political organizations.

And, due to the illegal actions of the FBI Bill Ayres is living the good life as a University of Chicago Professor instead of doing life in a federal penitentiary. But, then again, since his father was very wealthy and a big financial contributor to the Chicago political strong man Richard M. Daley, mayor of Chicago from 1955 to 1976. Who knows!

COINTELPRO tactics are still used to this day, and have been alleged to include discrediting targets through psychological warfare; smearing individuals and groups using forged documents and by planting false reports in the media; harassment; wrongful imprisonment; and illegal violence, including assassination.

The FBI's stated motivation was "protecting national security, preventing violence, and maintaining the existing social and political order."

J. Edgar Hoover, was the first Director of the Federal Bureau of Investigation of the United States. He was appointed as the director of the Bureau of Investigation in 1924 and was instrumental in founding the FBI in 1935, where he remained director until his death in 1972 at the age of 77.

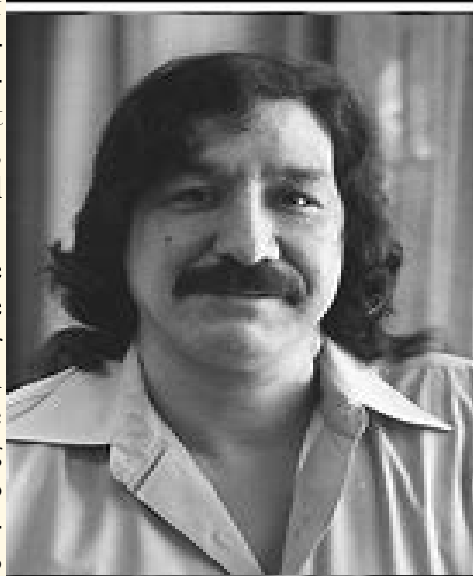

For 48-years, which include his 11-years as Director of the Bureau of Investigations he ruled the Nations most powerful law enforcement agency with an iron hand, truly "untouchable" despite many attempts to dethrone him.

Through out his 48-years reign over the FBI scandal, controversy and civil rights violations were prevalent and common place. The 1977 FBI prosecution of American Indian Rights leader Leonard Peltier is a showcase example of their corruption.

Even former United States Attorney General Ramsey Clark has served *pro bono* as one of Peltier's lawyers and has aided in filing a series of appeals on Peltier's behalf.

In all his appeals, the conviction and sentence have been affirmed by the 8th Circuit Court of Appeals. The last two appeals were:

1) *Peltier v. Henman*, 997 F. 2d 461 in July 1993

"The only thing I'm guilty of is struggling for my people."  
Leonard Peltier

2) *United States v. Peltier*, 446 F.3d 911 (8th Cir. 2006) (Peltier IV) in 2006.

Many member of the minority community in the USA know first hand of the hypocrisy, blatant corruption and outright violations of the constitutional rights of minorities by the FBI.

In 1964, just days before Hoover testified in the earliest stages of the Warren Commission hearings President Lyndon B. Johnson waived the then-mandatory U.S. Government Service Retirement Age of 70 allowing Hoover to remain the FBI Director "for an indefinite period of time." Hoover was 69 at the time.

As the old' saying goes, "timing is everything." As it was well known that President Kennedy and his brother Robert, the U.S. Attorney General were not friends with Hoover and President Kennedy was not about to grant him a retirement age waiver.

When Richard Nixon took office in January 1969 Hoover had just turned 74. There was a growing sentiment in Washington D.C that the aging FBI chief needed to go but Hoover's power and friends in Congress remained too strong for him to be forced into retirement. Hoover remained director of the FBI until he died of a heart attack in his Washington home on May 2 1972.

The House Select Committee on Assassinations issued a report in 1979 critical of the performance by the FBI the Warren Commission and other agencies.

The report criticized the FBI's (Hoover's) reluctance to thoroughly investigate the possibility of a conspiracy to assassinate the President. However, the FBI was able to minimize the report.

Hoover personally directed the FBI investigation of the assassination's of President Kennedy and his brother Robert Kennedy.

Fast forward, we had a former Director of the Federal Bureau of Investigation leading the Department of Justice's Independent Investigation of the President of the United States. Over a year later and \$25 million dollars he found nothing.

An FBI investigation that was based on a fictitious document generated by the political opponent of the President that the FBI knowing it was bogus used it to obtain a warrant to obtain information against the President while he was a candidate.

To make matter even more absurd the successor of the FBI director that served as the Department of Justice's Independent Investigation of President Trump has been found guilty of lying under oath to Congress about the illegal involvement and tactic used by the FBI in collusion with the top officials of the Department of Justice, CIA and other Government agencies against the President while he was a candidate and as the President.

And, while the Presidents newly appointed Attorney General became spineless and allowed the assistant Attorney General who has also been proven to be a co-conspirer with the Director of the FBI to prevent the election of the President and to oust him after his landslide election was allowed to orders the "Independent Investigation" of the President using the same bogus document as the FBI as justification for his actions and to appoint the "Independent Counselor."

If you find this hard to believe just take a second and look at all the laws the FBI have broken and are still breaking to destroy Donald Trump. And yet to this very day no one has been held accountable.

One does not have to be a rocket scientists or even a very high IQ to see that the basic tactics of COINTELPRO have not been abandoned.

I am not making this stuff up as hard as it is to believe these are proven facts. And it's illegal to lie to the FBI. *How can this even be legal? What happened to the 5th Amendment of Due Process?*

All this questionable behavior at the highest level of our Government while Leonard Peltier remains a political prisoner even though overwhelming evidence has proven that the FBI fabricated and withheld evidence to convict him.

Will Biden release Leonard Peltier from prison? Most likely NOT! Simply because the FBI has a warehouse full of bad stuff on the "Big Guy" and his family that spans his 50-year corrupt political career.

And heaven forbid, the FBI release the information on "Hunter's Laptop from Hell!" The FBI has had Hunter's laptop for almost 3-years and when questioned about it, "It's an on-going investigation," is the canned FBI response. Cover up? What's your view?

## Ben Shapiro: The greatest cover-up in human history

First, it was supposedly a conspiracy theory.

Then, it was banned.

Finally, it was true.

The so-called “lab leak” theory of the origins of COVID-19 — the theory that COVID-19 originated in at the Wuhan Institute of Virology and then was unintentionally loosed — was always the most probable explanation for the outbreak of the deadly virus. After all, as Jon Stewart correctly joked in 2021, *“Oh, my God, there’s a novel*

*respiratory coronavirus overtaking Wuhan, China. What do we do?” ‘Oh, you know who we could ask? The Wuhan novel respiratory coronavirus lab.’ The disease is the same name as the lab. That’s just a little too weird, don’t you think?”*

But for well over a year, it was considered verboten to mention the lab leak theory. When Senator Tom Cotton, R-Ark., posited the possibility of a lab leak in February 2020, he was roundly

mocked by the media. The New York Times headlined, “Senator Tom Cotton Repeats Fringe Theory of Coronavirus Origins.” Scientific American headlined — in March 2022! — *“The Lab-Leak Hypothesis Made It Harder for Scientists to Seek the Truth.”* Facebook actively quashed attempts to disseminate the theory; Dr. Anthony Fauci went on national television and downplayed the theory.

## School board member says district should refuse to hire teachers with Christian values: ‘Not...safe’

The dominance of left-wing ideologues who have wormed their way into positions of influence within the nation’s educational system has opened up another front against Christians who face persecution and discrimination for their religious beliefs, with an Arizona school board being a perfect example.

During a recent meeting, Tamillia Valenzuela who is a member of the school board for the Washington Elementary School District in the Phoenix-Glendale area said that she

**Committed leftists aren’t content to just get God out of classrooms with their war on school prayer, they really want to cancel Christians entirely and replace religious teachings with their own perverted dogma.**

would oppose a contract with a Christian university over its religious beliefs, according to Fox News Digital.

On February 23, the board agreed on a motion to dissolve its partnership with Arizona Christian University which it had for five years during which the ongoing contract enabled its “student teachers to be placed in its schools for field experience. The contract opened up opportunities for recruitment and hiring.”

At the meeting, Valenzuela who showed up wearing cat ears and who describes herself as *“a bilingual, disabled, neurodivergent Queer Black Latina... who loves a good hot wing (but only with the right ranch) and things that sparkle,”* assailed the university for its Christian beliefs and said that she was “disheartened” to learn that the contract had been ongoing for five years.

## Tulsi at CPAC: Dems, Biden regime ‘directly betraying Dr. Martin Luther King’s dream’

The modern incarnation of the Democratic party and its cynical and disgusting use of race as a means to attain and hold onto political power is a betrayal of the legacy of Dr. Martin Luther King Jr.’s dream, at least according to former Democrat congresswoman Tulsi Gabbard.

Having been effectively run out of her party by the warmongering authoritarian racists who now rule the roost, the former Hawaii lawmaker has become one of the fiercest critics of that was once a legitimate albeit wrongheaded political entity before it embraced the darkness, and she once again called out today’s leftists in a rousing speech at

***“They’re directly betraying Dr. Martin Luther King’s dream,” Gabbard told the audience. “As they racialize every issue, doing the exact opposite of what Dr. King preached. Judging us purely based on the color of our skin rather than on the content of our character become the racists that they claim to hate.”*** (January 15, 1929-April 4, 1968)

the Conservative Political Action Conference (CPAC) on Saturday.

During remarks delivered in National Harbor, MD, Gabbard condemned her former party’s embrace of “anti-white racism” in its policies on race as it becomes increasingly obvious to tens of millions of Amer-

icans that President Joe Biden is not a unifier as he falsely promised but rather a hateful, bigoted, race-baiting demagogue of a type rarely seen in the nation’s politics, let alone at the highest level.

While using her speaking slot to recognize the current iteration of the

Democratic party as a dangerous fascist force for destruction, she also made it clear that it has betrayed the legacy of the slain civil rights leader despite their constant invocations of him to cloak their vile anti-white racist agenda.

***“They’re using identity politics to tear us apart,” she said of Democrats. “They are fomenting anti-White racism and fanning the flames of divisiveness all for their own political gain. And what’s so disturbing about this is they are proud of it. This is not something happening behind the curtains.”***

## America First Legal pounces on ‘walking talking FARA violation’ Hunter Biden as new emails surface

Stephen Miller’s America First Legal filed a complaint with the Justice Department on Friday (March 3, 2023) accusing President Joe Biden’s son Hunter of having violated the Foreign Agents Registration Act (FARA) by failing to register as a foreign agent.

The complaint is based on Obama administration emails showing that, following Hunter’s ap-

pointment to the Ukrainian energy firm Burisma’s board in 2014, he advised his father’s office on what to say to the press about the appointment.

“Burisma is a ‘foreign principal’ under FARA. Hunter Biden is Burisma’s agent and subject to FARA registration because he was an officer of Burisma and represented Burisma’s interests to

the Office of the Vice President in addition to advising on a public relations matter. As an officer, Hunter Biden acted *‘at the order, request, or under the direction or control, of a foreign principal,’* the complaint reads.

**EDITOR'S NOTE:** Long the world's most Christian nation, America today is being taken over by a new "official" national religion, one being imposed on the entire populace by every major societal institution, from government, media and big tech, to academia, entertainment and business.

**This new state religion is Wokeism.** "Going woke" conjures up visions of someone claiming to be acutely sensitive ("awake") to "systemic social and political injustice." And not just alleged bigotry against blacks, but toward every other "minority" as well, from LGBT folk - especially transgender and on all personnel, causing recruitment to "undocumented immigrants." All of them, being **VICTIMS**, intrinsically more virtuous than the shameful oppressor class: primarily heterosexual white males. **This new "woke" consciousness** has turned America upside-down - from the nationwide Antifa and Black Lives Matter riots in 2020, to tearing down of historic monuments, to **demanding multi-million-dollar reparation** payments for blacks, to appointing transgenders as top government officials, to rampant reverse discrimination in every area of life, to the U.S. military imposing mandatory **"diversity training"** and transgender pronoun use on all personnel, causing recruitment to disastrously plummet. **Yet there is hope.** Being "saved" -

which in Wokeism is called being successfully pressuring the biggest "woke" - is largely a matter of worshipping victimhood by becoming an "ally" and "defender" of all the many victim classes, and a determined enemy of the **straight white male oppressor class**. Thus, **"joining the righteous"** as an ally - even if one is cursed to be a straight white male - opens the door mercifully for salvation, even to the most wretched.

# Biden sending millions to Palestinians but doesn't care about East Palestine, Ohio, Levin

President Biden is forsaking East Palestine, Ohio in deference to the Mideast land of its namesake, former Reagan Justice Department official and "Life, Liberty & Levin" host Mark Levin said Monday (February 27, 2023). Levin called the dynamic "grotesque," citing Biden's reported hefty taxpayer-funded aid to the Palestinians. He said the appropriations be considered a violation of the Taylor Force Act of 2018 - a Trump-era law prohibiting U.S. aid to the Palestinian Authority contingent on its engagement in 'Martyrs Fund' stipends.

# Cori Bush's campaign paid her husband for security services - but he doesn't have a private security license

FIRST ON FOX: Missouri Democratic Rep. Cori Bush's campaign doled out \$60,000 in private security payments last year to Cortney Merritts, who she quietly married earlier this month. Merritts, however, pocketed the security payments despite not having a St. Louis private security license, which is needed to perform security functions in the area, Fox News Digital has discovered. Merritts also received the campaign's cash as it simultaneously paid hundreds of thousands of dollars to a St. Louis security firm and another individual for personal protection. Fox News Digital filed a public records request with the St. Louis Metropolitan Police Department on Monday morning seeking information

regarding Merritts' private security license. In response, a Sunshine Law administrator said there are "no responsive records" relative to the request, and Merritts does not have a current license.  
When asked if Merritts ever had a private security license, the administrator said that the "last security license issued to that individual expired in 2012."  
... Bush's campaign did not respond to a Fox News Digital inquiry on Merritts' security license and his payments as they disbursed large sums to a security firm.

AN OPPORTUNITY  
for your voice  
to be heard

Share your story about  
Historical Trauma in  
these modern times.

I am conducting a research study to gain a better understanding of Historical Trauma since casino operations have improved the standard of living for many Native Americans. To be eligible to take part in this research, you must be a Tribal Member receiving per capita income for at least 5 years, and be willing to participate in a video recorded face-to-face interview.

If you are interested in participating in this research please contact Kevin Speir, doctoral student at NCU at 951-514-7911 or email to [kevinspeir@rocketmail.com](mailto:kevinspeir@rocketmail.com)

### Recruitment Social Media Post

My name is Kevin Speir, and I am a doctoral student at Northcentral University. I am conducting a research study to explore American Indians' perceptions of Indigenous Historical Trauma and engagement with native culture in the era of tribal casino income.

I am recruiting individuals who meet all of these criteria:

- Being a tribal member and receiving per capita income from gaming operations for a minimum of five years, and willing to participate in a video recorded face to face interview.

If you decide to participate in this study, you will be asked to do the following activities:

- Participate in a one-on-one online interview over zoom for 45 to 60 minutes, and review your transcript via email for 10-15 minutes.

During these activities, you will be asked questions about:

- Your tribal identification, education, employment and marital status, ethnic identity and involvement with American Indian and White cultures;
- your experiences with a casino operating on your Nation's reservation and the presence of casino tourism; your experiences of Indigenous Historical Trauma,
- and your feelings about the positive or negative effects of per capita income and cultural engagement on coping with Historical Trauma.

Participants in this study will receive a \$50.00 gift certificate via email after the view.

If you are interested in participating in this study, or have questions, please contact me by email at [kevinspeir@rocketmail.com](mailto:kevinspeir@rocketmail.com) or by telephone at (951) 514-7911.

Thank you! Kevin Speir
