Ahead of 'somber Passover' Fetterman reminds media of hostages: ' Hamas owns this entire catastrophe'

By permission of A.F. Branco and Creators Syndicate, Inc

Ahead of a "somber" Passover, Senator John Fetterman (D-Pa.) called on the Palestinian terrorist group Hamas to "surrender" and send the hostages home.

"With a somber Passover approaching," Fetterman wrote on X, "I remain committed to speaking about this travesty and acknowledge there can't be true lasting peace until the hostages are home." "We must never forget Hamas owns this entire catastrophe and can end this," he reminded social media. "Send them all home and surrender."

Biden's Illegal Vote Buying Student Loan Debt Transfer to Taxpayer Hit Over \$ONE TRILLION

Where is the GOP? Where is the Adults? This is prohibited by the Constitution of the United States of America!

MY VIEW *Ernie C. Salgado Jr*

Go Woke, Go Broke

California's Increasing Debt Burden: Rising Jobless Claims With \$20/hr Fast Food Minimum, Gas at \$7/gal & More Debt Amid Growing Deficit.' Socialism does not work, simply because the State runs out of other peoples money to Spend.

This editorial is for all my Tribal brothers and sisters as well as my non-tribal readers that have expressed concern that I don't include enough news on Tribal issues. My goal is to encourage tribal folks to look beyond the reservation borders to get a better understanding of how local, state and federal Government policies have a direct impact on the tribal Governments and the American Indian people. One great example is the 87,000 new ARMED IRS agents that have the power to seize everything you own "At Will," which means without a warrant or court order. And then there is the RICO Act which does require a warrant. And if you believe for one moment that the woke/Marxist won't weaponize the IRS, just look at the FBI & DOJ. Look at how they railroaded Leonard Peltier.

That said, let's start with the gaming tribes, more specially in California where the inflation is fueled by the "Tax and Spend" State legislator.

First, the Tribal Casinos are dependent on the local non-tribal population for their income. The majority of the money spent at the casinos is refenced to as "Expendable Income," which means the money they have left after they pay their bill, buy food, fuel and other needs.

Now, with inflation at 18.6% on a national average and with California around 20% it don't take much grey matter to understand why the casinos gross income is in the pits.

Now, the tribal members of casinos tribes get a double cut the pocket book. First, like everyone else they suffer from the 20% inflation rate and the reduction in profit sharing (Per Capita). Lets say the reduction is 20% for the sake of argument, and added the to the inflation rate it totals at a 40% cut in buying power. That's gotta hurts. With the inflation factor you pay more for the

goods and services and with the lose of income, you don't have the money. Once the credit cards max out and the minimum payment begins to be a problem. Yet, most tribal folks still support the Woke/Marxist.

However, in my view, many tribal folks are in truth "Reagan Democrats." While a vast majority of the tribal members as well as the general public have not accepted that the Democratic Party has been hijacked by the Woke/Marxist Elitist.

Yet, many of our college educated tribal member have been indoctrinated into the Woke/Marxist ideology which, is very troubling to me because it's conflicting with our basic tribal value system of family, community and our belief in our creator.

In the few following paragraphs I offer a fairly precise narrative on the root cause of the current economic fiasco.

On a national level, the closing of oil production is the single most destructive policy to the Nations economic well being, simply because our entire economy is based on fossil fuel. The second is the shutting down of the XL Pipeline.

The open border policies not only add to the economic concerns by the increased spending by the federal, States and City governments, because of the infusion of money. Not to mention the 10-million of unvetted illegal migrants.

The California Woke/Marxist policy makers have reached a major objective toward their primary goal of bankrupting the state by overspending \$78 Billion and counting.

As the California lawmakers struggle to make spendings cuts, **ILLEGAL MIGRANTS** cuts is not even a consideration. In fact housing and

health care for illegal migrants is estimated at 7 to 10 billion dollars. One of the reason it hard to get an exact figure is because the funds are allocated for citizens and is allowed to service the illegal migrants. In way of example is education, public assistance and legal aide.

Increasing taxes on the already over taxed workers and blaming corporations, big oil and climate change for their Big Government policies and tax and spend or over spend as is the case

So many folks have left the state it has lost a congressional seat and instead of mending their "Tax and Spent" policies they want to tax the folks leaving. Good luck getting that passed the supreme court. The proposed legislation of not allowing stores to close in crime ridden areas is unconstitutional as well.

The new fast food workers minimum of \$20 per hour is already on the table for the entire state. I'm not against a fair wage but, an \$18 hamburger is hard to take. And since I still have freedom of choice, I'll pass.

The new "Wealth Tax" that will drain the investment money from the state simply because of the triple tiered taxation. Guess who the "Wealthy folks" will be when all the super rich leave? You bet, anyone with a job or owns a home. And, the soon to hit ban on trucks using fossil fuel.

The total economic collapse of America is the goal of the Woke/Marxist so the Government can provide for all our needs. We will have 20 million **ILLEGAL MIGRENTS** by December.

The only hope to stop this insanity is to learn what is happening and vote for your freedom.

California is Woke/Marxist on steroids.

God Bless & Go in Peace!

Biden's Judge Nominee Backs Ban On Assault Weapons' But Is Unable To Define Them

California's latest job-killing policy is more bad news for Golden Staters

Read More @ FOX News

California's list of public policy failures was already long, but hiking its minimum wage to \$20 an hour for fast-food workers may belong at the top. The predictable fallout in lost jobs and higher prices are already being felt, and the flood of residents fleeing the state is poised to accelerate.

The Golden State is already home to some of the highest taxes and costs of living in the country, the consequences of failed government policies. A higher minimum wage is more of the same.

Consider California's "green" energy policies that have created the highest utility rates in the nation. Instead of rolling back those mandates, it's created a new one: surcharges on utility bills, making the middle class pay more, even if they don't use more.

The overtaxing, overspending and over regulating by the government in Sacramento has turned the state into such a basket case that 1.2 million more people left California than moved in over the last three years - by far the biggest loss of any state, beating New York by 35%. [California's list of public policy failures](#) was already long, but hiking its minimum wage to \$20 an hour for fast-food workers may belong at the top. The predictable fallout in lost jobs and higher prices are already being felt, and the flood of residents fleeing the state is poised to accelerate.

'Legal terrorism': Harris Faulkner scorches prosecution and judge for 'contentious' treatment of Trumps' team

Fox News host Harris Faulkner accused Manhattan District Attorney Alvin Bragg and New York Judge Juan Merchan of carrying out "legal terrorism" against former President Donald Trump Tuesday, (April 23, 2024) saying she was "still looking" for a "victim" in the case.

Merchan sparred with Trump's attorneys during a Tuesday morning hearing to address allegations that the former president violated an expanded gag order... criticized the judge's daughter ... including one linking to a New York Post report on Loren Merchan's firm helping Democratic causes raise \$93 million off of Trump's indictment in the case... Faulkner expressed outrage at the possibility Trump could be tossed in jail over "future violations" of the gag order...

That's a nation not run by a president, not even a dictator, but a terrorist," Faulkner told Terrell.

"It feels like legal terrorism, it really does," Faulkner told Terrell. *"I'm still looking for the victim. I'm still looking, as we have in these other cases, still looking for any fairness in this process. He is within the gag order confines and they want to go after him."*

Record High: Tribal entities won \$23.3 billion in federal contracts in fiscal 2023 [Read More @ Tribal Business News](#)

The U.S. government, the world's largest buyer of goods and services, increased its purchasing to record levels last year and that was very good news for tribal entities in the federal contracting sector.

The surge in federal buying during fiscal 2023 helped push contract awards to tribal entities to record heights last year. Federal awards to tribal enterprises increased to a record \$23.3 billion in fiscal 2023, a 16.3% increase over fiscal 2022, according to exclusive data provided to *Tribal Business News* by HigherGov, a market intelligence firm that tracks federal contracting.

The increase of \$3.3 billion in awards to tribal entities last year was due primarily to double-digit growth in federal contracts from the U.S. Department of Defense (DoD) versus the prior fiscal year.

MY VIEW: A tribe does not have to be a high tec company to be qualified to participate as an 8a government contractor.

In California over 70 tribes do not have casino's and could be earning hundreds of thousands of dollars or even million of income.

This opportunity is real & as all great business ventures "You Snooze, You Loose."

My name is Ernie Salgado, Jr., and I am an Elder, Tribal Member of the Soboba Band of Luiseno Indians. Soboba is located in Southern California. I have worked since I was 10 years old and retired a few years past. That lasted a few months so I started a Tribal News publication that is more traditional and conservative, the American Indian Reporter.

As a Master Barber by trade, I have had the opportunity to learn the world of business from the potato fields, the streets of LA and academically having earned a Masters in Business Administration at the University of Redlands.

I have currently had the opportunity to be introduced to the 8a Government contracting for Tribal Government. As you can see, this is fantastic money generating business as well as growing as shown in the chart.

If your tribe would be interested in exploring their options as a 8a Federal Government contractor, email us at Box5@AmericanIndianReporter.com or call me at 951-217-7205. Our Team of experienced professionals are ready to serve you, so let's talk.

Is the Judge going to GAG the people?

MY VIEW: If I happen to agree with it, but it allows the judicial system to be corrupted.

Now, the Soros/Biden puppet show is doubling down on it and the GOP House appears to be more interested in removing their own Speaker. We are forced to recognize transgenders as a legitimate gender yet, biological science rules other wise but, woke ideology over rules science as it does regarding them giving birth. Truth be accepted mental health treatment should be in order.

AKA Socialist Democrats is shoving down the throat of the American people, you need to get a reality check. I'm not implying that many are lacking cognitive capacities', but rather how the Marxist activist have been highly successful in the implantation of the "8 Steps to Topple a Nation," by Saul Alinsky. (See the 8 Steps below.)

Woke/Marxist/Socialist, they are one in the same. The Obama/Soros introduced the 'Rule by Fiat' and got away with it. The executive order allowing the children of the illegals to get a immigration pass dubbed the "Dream Act" which, is unconstitutional and the liberal judges rule it legal. Why hasn't it been challenged to the supreme court?

The open border, forgiving student loans, illegally I might add, spending billions on illegal migrants without congressional approval is not legal. The elitist have taken control of the Country and no one dare object or you will be destroyed politically, financially and even jailed. The global elitist have taken over America!

Really?! San Fran transit introduces crime-thwarting 'intervention cards' that need to be seen to be believed [Read More @ BPR](#)

In a moronic twist, the Bay Area Rapid Transit (BART) system in San Francisco is pushing "intervention cards" that can be used if you are harassed or attacked and young leftists appear to love them.

Two wallet-sized cards are now available for riders to hand to bystanders should they need help or support during harassment or an attack. Apparently, it did not occur to these bureaucrats and young Marxists that fishing out a card while you

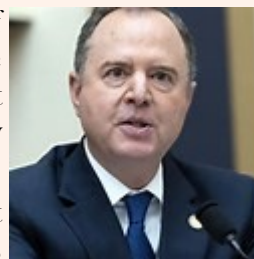

are being bludgeoned to death or raped isn't feasible.

A youth design team created the cards donning nifty statements such as "I Got You" and "You Got Me?", they also include actionable items that riders can take amid a violent situation. The laughable instructions even advise on reporting incidents to police or just simply standing with the victim.

MY VIEW: This should work as well as the No Bail, No Jail, Free Drug Usage in public and leaving the used syringes and needles on the streets and sidewalks, Camping on the sidewalks, urinating and defecating in public, looting, robbing and mugging at will and now these law bidding citizens are going to honor an "intervention cards." How far out of touch with reality are these folks? And the people that vote for them.

Rep, Adam Schiff was reportedly the victim of a theft just hours before a ritzy campaign dinner.

My guess he didn't show them his "intervention cards." Maybe he did and they took it too. Then again, maybe he wasn't issued one.

Columbia Protestors Clarify They Only Want Death To America After America Is Done Paying Their Student Loans [Read More @ The Babylon Bee](#)

What is Biden's team hiding about its pledge to 'shut down' America's largest Christian university? [Read More @ FOX News](#)

In testimony before Congress, Secretary of Education Miguel Cardona vowed to "shut down" Grand Canyon University (GCU), one of the nation's largest and most successful private colleges - and the motive appears purely political. Secretary Cardona's department has targeted GCU with a \$37.7 million fine, the largest fine ever assessed in agency history. By comparison, the Department of Education fined Penn State \$2.4 million for failing to report the sex crimes of Jerry Sandusky, and Michigan State \$4.5 million for failing to address sexual assault committed by Larry Nasser.

What is the basis for this extraordinary fine? The department alleges that GCU failed to properly inform Ph.D. students that they must take courses while completing their dissertations. This is a pretextual deceit.

Cardona's testimony, and public records requested by the Goldwater Institute, reveal that the government's real motive is not any misconduct on the part of GCU, but animus toward private, affordable education that does not tow the statist party line.

By any metric, GCU is a success story. Starting with less than 1,000 students and few course offerings, now the university has over 100,000 students enrolled across its programs, and offers degrees in every conceivable discipline.

GCU is known for helping the low-income community of Phoenix. It has a successful record of graduating students into good jobs, including in the trades. It celebrates diversity of viewpoints and ideas. And most impressively, GCU has not raised tuition for their students in over 15 years.

Soros & other elites funding the anti-Israel, antisemitic protests

No one familiar with the state of modern academia can be much surprised by the wave of anti-Israel tent-city occupations sweeping US campuses - but that doesn't make them 100% "organic."

And The Post's discovery that lefty philanthropists are funding student "protest leaders" may be just the tip of an iceberg.

Encampments at Harvard, Yale, UC-Berkeley, Ohio State and Emory in Georgia were organized by branches of Students for Justice in Palestine, which gets cash (some direct, some indirect) from the Soros family "charities" as well as the Rockefeller Brothers Fund and retired Wall Street banker Felice Gelman.

Gelman and the Soros' also give to Jewish Voice for Peace and Within Our Lifetime, two more groups intimately involved in the protests.

At least three organizers - Malak Afaneh (Berkeley), Craig Birkhead-Morton (Yale) and Nidaa Lafi (University of Texas-Dallas) - are paid fellows of another lefty-philanthropy favorite, the US Campaign for Palestinian Rights.

The Real Woke-Marxist Agenda

Denzel Washington, Mark Wahlberg, and Sylvester Stallone have all resigned from The Screen Actors Guild to create a new "no-woke" union focused on traditional values.

Jon Voight and Mark Wahlberg have both officially signed on with Mel Gibson's "non-woke" production company.

"We're thrilled to be on board," Voight told us in an email, "The first project will be explosive and fun, encapsulating American ideals and traditional values."

The studio opened less than a month ago with a huge response from the public.
