TREASON: Aiding & Abetting Enemies of the United States of America

MY VIEW: Ernie C. Salgado, Jr.

The United States of American President Biden has abandoned Israel because they refuse to allow the Hamas and Hezbollah terrorist organizations, to regroup and attack Israel again. He is withholding military aide that has been approved by the United States Congress for Israel.

sponsored by Iran and other anti-America and Israel radical Islamic Countries by Israel is at war against Hamas and Hezbollah and for some unknown reason the United Nations membership including the Biden administration have conveniently forgotten why. They act as if the Palestinian people are innocent of any support of Hamas or Hezbollah whom they elected to lead them. Never mind that on October 7, 2023 Hamas indiscriminately firing rockets into Israel and invaded the Nation murdering over 1,200 Israelis, injuring thousands more. Killing babies as they slept in their cribs. And taking over 250 hostages of which 100 were released while the remaining 150 which includes 8 American citizens.

And then Iran launched an unprecedented, violent attack on Israel. 170 suicide bomber drones, 120 ballistic missiles, and 30 cruise missiles were fired into Israel in a simultaneous attack intended to overwhelm Israel's defenses and inflict maximum carnage. However, Israel's "Iron Shield" was able to intercept the 320 weapons. Then Biden had the shameless audacity to warn Israel against retaliating, Iran fired 320 missiles at Israel and Biden tell them to turn the other cheek. Israel showed the world first class warfare by sending 3 guided missiles into Iran that destroyed their nuclear development security system with pin point accuracy which was 3,000 miles for Israel.

The worldwide anti-Israel propaganda including college and universities in America reportedly funded by Soros and friends. When it started the chants were "Death to Israel" and "Death to America." However, the focus has changed to accusing Israel of genocide and illegally invading and occupying Gaza. Hamas and Hezbollah are now the victims' and Israel the lawless aggressor.

Can you imagen President Franklin D. Roosevelt applying Bidens policies after Japan attacked Pearl Harbor? "Let's not overreact against the Japanese!" Biden tells Iran "Don't" & does nothing when they do.

Yet in response, President Biden demanded that Israel should just "take the win" and not respond. In his wealth of wisdom he has blocked the congressionally approved military aid to Israel which is in reality "Aiding and Abetting" the Hamas and Hezbollah terrorist as declared by the congress of the United States of America.

This is outrageous. It's a complete betrayal of our ally. It only emboldens Israel's enemies in their violent attempt to eviscerate the Jewish state. No nation should be prevented from responding to an attack of this magnitude. Can you imagen President Franklin D. Roosevelt applying Bidens policies after Japan attacked Pearl Harbor? "Let's not overreact against the Japanese! " Or Iran for that matter.

My View is that when the truth is exposed on the Bush's, Berry Sotelo AKA Obama and Biden, the "Deep State", Soros and China will have played major roles in the worldwide corruption.

Israel is on the brink - in a war for its very survival - and President Biden is bowing to pressure from the far Left.

Where are the members of congress? Why haven't they pressed the issue of Biden authority to override congress, absent his veto which has passed.

The American Center for Law and Justice (ACLJ) has launching a multipronged effort through their offices in Jerusalem, Washington, D.C., and at the U.N. to defend Israel, sanction Iran, and stop the lawfare against our ally. They are demanding the U.N., President Biden, and world leaders stop dictating the terms of how Israel is allowed to defend its people.

They are delivering legal demand letters to the U.N. Secretary-General, U.N. Security Council, U.S. officials, and foreign leaders, demanding that they defend Israel. Take urgent action with us.

ACLJ petitions aren't merely names on a page but powerful tools used with governments, the media, and courts to focus attention on injustice and create real-world change. **Here's how:**

First, you can directly and immediately alert your individual Members of Congress and other government officials of the size and scope of the public support for the ACLJ initiatives. Unlike, say, White House petitions - which at best generate a response from low-level staffers - **ACLJ most successful petitions have generated direct White House, State Department, and congressional responses** at the highest level.

Soros & Other Biden donors funding groups behind anti-Israel protests on college campuses: report

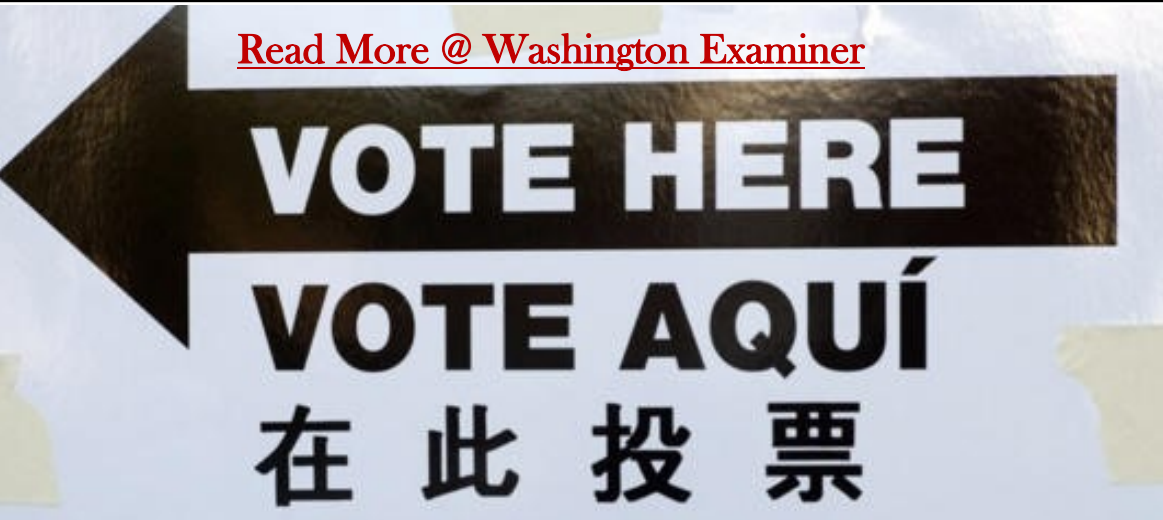

President Biden’s biggest Democratic donors are also funding some anti-Israel protests that have taken over college campuses, according to a report.

While some anti-Israel student protesters and agitators chant "Genocide Joe" in reference to Biden and his administration’s policies, an analysis by

Politico found the donors contributing both to Biden and to some of these protest groups include **George Soros, David Rockefeller Jr. and Susan and Nick Pritzker**, *heirs to the Hyatt hotel empire.*

Jewish Voice for Peace and IfNotNow are two of the main groups that have organized protests on some college campuses nationwide, including at

Columbia University in New York City, according to Politico. The outlet’s analysis found that both groups are supported by the **Tides Foundation**, which in turn is bolstered with funds , which has Rockefeller Jr. on its board, from Soros. It also found that the Rockefeller Brothers Fund gave \$300,000 to the Tides Foundation in 2022.

Earth to Biden, Earth to Biden!

CNN’s Erin Burnett asks Biden how he is going to turn the economy around. He said he already has!

CNN anchor warns Biden voters aren’t as stupid as he thinks they are on the economy (Read More @ AmericanWest)

CNN correspondent John King & President Joe Biden

When Biden entered office the inflation rate was 1.4%, not 9% as he claimed... It’s now at 8.4% !

President Joe Biden is painting a rosy – and false – picture of the U.S. economy and one CNN anchor warns the Democrat is “pissing off” voters with his claims. CNN correspondent John King cautioned the president about being on “very dangerous ground” with voters as he continues to make claims that his administration has managed to turn the economy around. Biden told CNN anchor Erin Burnett in a recent interview that “corporate greed” is responsible for the crushing burdens Americans are under, claiming inflation was 9% when he came into office and repeating the misleading claim that his administration has created jobs. But King warned that voters do not agree with the president’s outlook or assertions despite what the numbers show. *“He is on very dangerous ground,” King told “The Lead” host Jake Tapper.* When Biden entered office the inflation rate was 1.4%, not 9% as he claimed, according to the Bureau of Labor Statistics. By June 2022, it had shot up to 9.1%, well above the Federal Reserve’s targeted rate of 2%. And while inflation numbers appear to be dropping, the purchasing power of the dollar has declined significantly. Despite Biden’s dismissal of Burnett’s remark about the GDP, the facts don’t bear out his claims.

Federal Reserve Chair Jerome Powell has raised a red flag, warning that the United States is heading towards an "unsustainable fiscal path." Powell shared his concerns about the fiscal direction of the United States during a “60 minutes” candid interview with Scott Pelley. He emphasized that the national debt was growing faster than the economy and becoming a threat.

Jack Smith Admits to Misleading Judge, Case Forced to Go on Indefinite Hiatus | Facts Matter

A survivor of Mao's Cultural Revolution says she is experiencing post-traumatic stress witnessing history repeat itself on college campuses as "Marxist hordes" have taken over in anti-American and anti-Israel demonstrations.

In an interview with Fox News Digital, Lily Tang Williams, who is currently running as a Republican candidate for Congress in New Hampshire's 2nd district, said she fears the country she left is coming back to haunt her again in the United States

T sometimes I get nervous, and I feel like I'm *having a little bit of PTSD and like I can't sleep well whenever I see the way they're chanting, using drums and us[ing] slogans, [are] humiliating people and have a huge amount of young people...chanting 'Death to America,' not just 'Death to Israel.' I just feel like, oh my goodness the... Red Guards are in action again,"* she said.

The Red Guard was a massive student-led, paramilitary social movement in China that was mobilized by Chairman Mao Zedong in 1966. 'Young people were one of the most effective tools Mao exploited to fuel his revolution, Tang Williams said. Most of the young people protesting on college campuses today are "naive" and therefore ripe for manipulation by bad faith actors, she added.

"I think that a lot of students who were protesting on college campuses [are]... confused... Because that's what Mao said, the young people's mind is a blank piece of paper, and you can draw the most beautiful pictures," she said, adding that she thinks they are *"naive and easily manipulated... [for] revolution"*

Two totalitarian ideologies explain the Biden regime

Without the Democrat Party's totalitarian agenda, the violent protests would not have occurred.

Six US House Representatives of the Latino-Jewish Caucus on May 3 condemned Colombian President Gustavo Petro for breaking diplomatic relations with Israel. Rather than toothless condemnations, the House should look below the surface of the Joe Biden regime's diplomatic support for Petro and why they are aligned.

After nearly three weeks of nationwide campus protests, funded in part by Biden's donors, on May 7 he condemned the "ferocious surge of antisemitism." Electoral needs drove Biden's belated, deceptive statement. He has not applied federal law to the violent, coordinated protests.

The truth behind this would sink Biden and Democrats in this year's election. The pro-Hamas pro-

tests fit right in with the Democrat Party's creeping totalitarianism toward a one-party state. The demonstrators have a profoundly anti-American agenda and are at direct odds with those who love this country and its constitutional traditions.

Nicolás Maduro President of Venezuela * Colombian President Gustavo Petro

Two totalitarian ideologies—communism and Islamic fundamentalism—have converged in these protests. The Biden regime backs these two ideological forces in Colombia and Venezuela toward the transformation of the United States.

According to Joseph Humire, executive director of the Center for a Secure Free Society, **Iran has replaced Cuba as the dominant power in Venezuela.** The latter has become the spearhead of criminal anti-American activity in Latin America, and Petro has proved to be a bosom buddy of Iran and Venezuela.

Humire identified Hezbollah as "one of the most dangerous destabilizers of Latin America." It operates freely in Venezuela and washes illicit money throughout the world. Humire says that Islamists and communists leave aside the differences in their ideologies and focus on the mutually beneficial logistics of their criminal enterprise.

"We must find a way to rescue Judeo-Christian values that have kept us free," Cabal laments.

Cabal's exhortation is urgent now for the United States. Totalitarians who worship government and those who claim to worship Allah have joined to attack the United States from inside and out.

Without the Democrat Party's totalitarian agenda, the violent protests would not have occurred. Islamists propagandize, but they do not control institutions, cities, states, and the federal government as Democrats do.

How Vietnamese lawmakers struck back when L.A. County declared Jane Fonda Day

As Saigon was falling, Janet Nguyen's uncle - an officer in the South Vietnamese Army - was taken before his village and executed. After the city fell on April 30, 1975, the communists put Nguyen's father and mother in jail. Their "crime?" They got caught trying to escape the country.

After Saigon fell, Tri Ta's father spent years in a re-education camp prison. His "crime?" He wrote books critical of communism.

Both Nguyen and Ta eventually made it to California with their families. She became a California state senator and he became a member of the Assembly. The Republicans represent Orange County districts home to the largest Vietnamese population outside of Vietnam.

Forty-nine years after the Fall of Saigon, April 30 remains a solemn day for Nguyen and Ta, as it is for many of the 2.3 million Vietnamese-Americans in the U.S. They call it Black April.

"It's a day that we mourn," Nguyen said.

Campo, a Historical Southern California town For Sale at \$6.6 MILLION

The historic area in Southern California is up for grabs, but it comes with a pretty price of \$6.6 Million Ben Franklins. Top Gun Commercial Real Estate (Top Gun CRE) recently listed the downtown area of **Campo, California**, for sale. The area was settled in the 19th century and served as a military town in World War II, according to the Pacific Southwest Railway Museum Association.

The Southern California unincorporated community has less than 3,000 residents, according to the 2020 census. It is located a mile from the U.S.-Mexican border and around 50 miles south-east of San Diego on Interstate 8.

The town of Campo shares its name with the neighboring Tribal group at the Campo Indian Reservation. Two other reservations are near by: The Manzanita and La Posta Indian Reservations.
