Yesterday, Was Half-Ass Indigenous Peoples Day AKA Columbus Day

A Horrifying Nightmare

October 2, 2024 on "The View" Vice President Kamala Harris said *"I Can't think of anything I would've done differently from President Biden."* Absolute Honesty, which many voters believe to be a "Hot Mic Moment."

What most American citizens are not aware of is that the Democrat/Socialist have a very specific 8-Step Plan to bring about the transformation of America to a Socialist Country.

The current economic conditions in American are not by accident, they are in step with the Democrat/Socialist 8-Step Plan as simplified by Saul Alinsky on the works of Karl Marx.

Please read the *"8-Steps To Topple a Nation to Create a Socialist State"* below and you decide what's true! It's been Over 60-Years In the Making!!

Saul Alinsky: "8-steps to Topple a Nation to Create a Socialist State"

Who was Saul Alinsky? He was an American community organizer and writer. He is often noted for his book *Rules for Radicals* (1971) and his *"8-steps to topple a nation and create a Socialist State."*

- 1) **Healthcare:** *Control Healthcare and you control the people.*
- 2) **Poverty:** *Increase the taxes, and this will produce more poverty.*
- 3) **Debt:** *Increase the debt to an unsustainable level. That way you are able to increase taxes, and this will produce more poverty.*
- 4) **Gun Control:** *Remove the ability to defend themselves from the Government. That way you are able to create a police state.*
- 5) **Welfare:** *Take control of every aspect of their lives (Food, Housing, and Income).*
- 6) **Education:** *Take control of what people read and listen to – take control of what children learn in school.*
- 7) **Religion:** *Remove the belief in God from the Government and schools.*
- 8) **Class Warfare:** *Divide the people into the wealthy and the poor, the White privileged. This will cause more discontent and it will be easier take (Tax) the wealthy with the support of the poor.*

KAMALA HARRIS's Middle Class, Working Class Neighborhood

KAMALA HARRIS - Grew up in this Middle-Working Class Neighborhood. Here are some home and in Westmount Quebec, as she reports a Middle Class, some stats on This Working Class Neighborhood.

WESTMOUNT QUEBEC

Westmount, TMR rank among 5 most unequal municipalities in Canada, analysis shows

Westmount, which has a population of about 20,000, the most exclusive enclave has a median household income of \$360,000, according to Centraide Montreal data.

Westmount, which has a population of about 20,000, the most exclusive enclave has a median household income of \$360,000, according to Centraide Montreal data.

Fox News host Laura Ingraham tears apart the "heartless" and "incompetent" government response to Hurricane Helene and the victims left in its wake on ["The Ingraham Angle."](#)

LAURA INGRAHAM: Did Joe and Kamala care more about the millions of illegals coming across our border than the people struggling in the storm-ravaged southeast?

Over the past four years, Democrats, led by Joe Biden and Kamala, racked up over \$7.9 trillion in spending, sending our national debt to over \$35.6 trillion, but somehow, after all that spending, it turns out we don't have the money we need to rescue and help our fellow Americans...

When this is allowed to happen, how do we even qualify as a superpower anymore? How can the people running things be this heartless and this incompetent? Ensuring that we have money and supplies set aside for emergencies is a basic duty of government officials.

Biden bewildered about people in storm zone, blurts out 'they're very happy'

Very late to the party, President Biden surveyed storm damage in Georgia and Florida in the wake of Hurricane Helene, and at one point in Florida, a resident greeted Biden's motorcade with a middle finger.

Once returning to the White House, a reporter asked the very tired president,

"What do the states in the storm zone need – after what you saw today?" "Oh, storm zone? I didn't know which storm you're talking about," Biden replied. "They are getting everything they need – they're very happy across the board."

North Carolina scrubs 747,000 from voter rolls amid GOP lawsuit

"From the start of 2023 through August 2024, county boards of elections in North Carolina removed more than 747,000 ineligible registration records from the state's voter rolls," the state Board of Elections said in a [press release](#).

"That's an average of more than 1,200 voter records removed from the voter list every single day during those 20 months. The county boards follow careful policies to ensure that only ineligible records are removed, not those of eligible voters," the agency added.

Deceased voters were third, with 130,688 records removed for this reason.

11K noncitizen registered voters could tip the presidential race in Nevada: GOP lawsuit

LAS VEGAS — As many as 11,000 noncitizens are registered to vote in the crucial swing state of Nevada because Democratic Secretary of State Francisco "Cisco" Aguilar is ignoring his duty to keep voting rolls clean, a lawsuit alleges.

Republicans say state data show likely more than 11,000 noncitizens are registered to vote this year – and an estimated 3,700+ will cast a ballot in November's presidential election.

TRIBAL SOVEREIGNTY DEFINED

Editor-at-Large Mark Trahant interviews leaders across Indian Country to find out how this concept works on the ground.

For frontline activists like Onondaga citizen Hickory Edwards, it means looking out for the health of the planet's water. For Migizi Spears, it means breaking Minnesota law every year by fishing on Red Lake before the season opens. It takes on a physical form through Nicholas Galanin's installation in New York City that draws attention to the land.

Producer Stewart Huntington joined tribal, state and federal officials on the Leech Lake Reservation to celebrate the partial writing of a 20th century wrong to celebrate the return of 11,700 acres of land that was illegally taken.

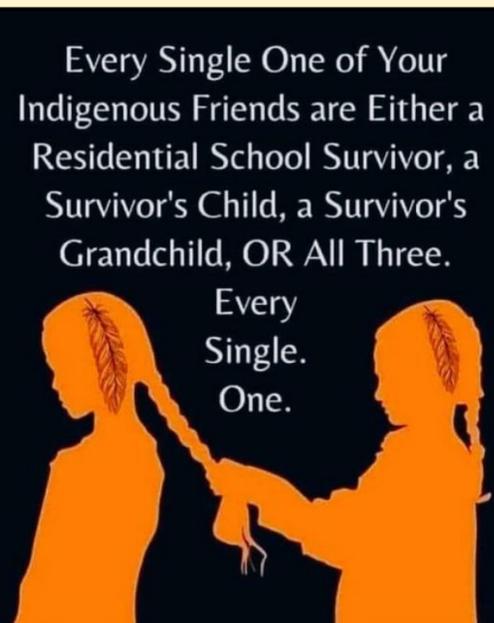

Tribal sovereignty can also take hold in business for the Morongo Band of Mission Indians in California. Its groundbreaking efforts control electrical transmission lines crossing the territory.

Regular contributors Holly Cook Macarro and Michael Stopp weigh in on issues that impact Indian Country with Political Correspondent Pauly Denetclaw.

FEMA runs out of money for Helene while spending hundreds of millions on migrants

In April of this year, FEMA announced \$640 million in new funding, \$300 million for “direct funding” to help immigrants settle in the U.S. while the other \$340 million went to cities via grants for the same purpose.

Photo on right shows Virginia Gov. Glenn Youngkin assesses storm damage caused by Hurricane Helene in Damascus, Va., on Saturday, Sept. 28, 2024 ©Christian Martinez, Office of Governor Glenn Youngkin

Department of Homeland Security Secretary Alejandro Mayorkas told reporters Wednesday (Oct. 2, 2024) that FEMA does not have enough funding to last the rest of the year even as it has spent hundreds of millions of dollars on migrants under the Biden administration and more hurricanes could be on the way.

DHS oversees FEMA, putting Mayorkas in charge of the emergency relief agency which has recently been focused on helping migrants settle in the U.S.

“We are meeting the immediate needs with the money that we have,” Mayorkas told reporters. “We are expecting another hurricane hitting. FEMA does not have the funds to make it through the season.”

The startling admission by Mayorkas comes as FEMA grapples with the widespread damage of Hurricane Helene, A Category 4 hurricane that ripped through the southeast costing billions of dollars, causing widespread infrastructure damage, food shortages, and more than 100 deaths. Many are still unaccounted for as well.

“Last year, more than \$780 million was awarded through SSP and the Emergency Food and Shelter Program - Humanitarian Awards, which went to organizations and cities across the country,” FEMA said in its release.

While funding is allocated by Congress and money can be flexibly funneled through FEMA from other internal sources, Mayorkas’ comments still show that FEMA’s resources have

been focused on migrants while it was left unprepared for this deadly hurricane season.

Illegal immigration has soared under the Biden-Harris administration with millions of migrants entering the U.S. and overwhelming the federal government’s ability to process them, let alone catch the millions of illegal immigrants crossing the southern border.

At least 12 million illegal immigrants have entered the U.S. under the Biden-Harris administration, though many experts estimate the figure is actually much higher.

There will never be another like Pete Rose! He battled his entire life, making it to the Big Leagues on determination and grit. He wanted to win every game and get 3 , no make that 4...no, 5 hits everyday. He won batting title because he had the desire and the goal. He wanted Ty Cobb's record.

Will we ever see this again? 13 seasons of 190+ hits. 3,562 games played. 5,929 times on base. Rookie of the Year, All Star, Gold Glover, Silver Slugger, MVP and World Series Champion. A local kid from Cincinnati who became a King.

We were teammates, business partners and more importantly, in spite of what everyone thought, we were friends. I will miss him dearly.

"American Freedom At Work! Below is copies from Shayne's Journal #2025 Oct. 7, 2024

You may have missed the result of a "historic" vote. During the 2020 election, 16 and 17-year old students in the Oakland School District have been enfranchised for School Board elections. Berkeley did so in 2016 but nothing was actualized. Judicial direction now mandates resolution for the 2024 election.

Not an isolated incident, the youth vote is part of a national movement.

(<https://www.ncsl.org/elections-and-campaigns/voting-age-for-primary-elections/os/f/ref/app>)

More importantly, the youth also voted on "what they want" in their school curriculum:

- Health & Wellness
- Community Centered Schools
- Essential Life Skill

<https://www.oaklandyouthvote.org/>

There is demonstrable proof that students are interested in learning government in reality rather than abstract, like reading their Tribal Constitution, City charter, Supreme Court

opinions, etc finding the "foundations" of an issue and not just parrot hype from media or ill-informed associates.

You may also recall that Governor Newsome just signed AB 2927, **The Personal Financial Education Act mandating that Financial Education be added to curriculum for all high schools by 2027 and making it a graduation requirements by 2031.**

I have long advocated that no senior should be allowed to graduate without being able to articulate the **Rule of 72** and also **demonstrate the mathematics of compound interest with "A Penny a Day Doubled"**. Many adults could use a tutorial in these concepts also.

We live in a capitalist world. No matter how profits are aggregated or distributed, profit is the incentive world-wide, in every country.

If one doesn't like this "Suck Up" economy (an updated version of "Trickle Down"), then one must understand it completely, including vocabulary, history and mechanics before one can change it. **"Know thine enemy, but to thy own be true"**.

From there, what are the alternatives? or insertions that can provide more inclusiveness for the general population?

Our technology is at a point where classic labor will not be needed. Thomas Jefferson's state goal of breaking man's tie to the land enough to let him enjoy the arts and humanities is about to dawn.

Youth of the era may not be able to find jobs at fast food restaurants because they will be held by robots but they will have a vast panorama of opportunities to further explore the human brain and body, solve many medical questions and/or provide human to human service to others. Hopefully those with creativity and talent (**not like those of use with a three note range, all off key**) will have the opportunity to explore, create and communicate the beauties of the world and expressions of other realities. And we will still be needing those that can fix things - or the electronic systems that control them.
